

PhD Positions on offer

Open University - Stazione Zoologica Anton Dohrn International Ph.D. Program 2019 - 2020

3-years fellowships are available to carry out PhD level research in Biological Sciences at the Stazione Zoologica 'Anton Dohrn' Naples, Italy. Applications are invited from qualified postgraduate candidates to work on the following topics:

1. Impact of microbe-Jellyfish associations on the Carbon and Nitrogen Cycles in coastal marine Ecosystems (JuICE)

Director of Studies: Ulisse Cardini

Department of Integrative Marine Ecology

2. Biosynthesis of long chain aliphatic compounds from *Nannochloropsis* spp.

Director of Studies: Sergio Balzano

Department of Marine Biotechnology

3. Nitrate sensing and uptake in diatoms: from molecular evolution to functional characterization

Director of Studies: Alessandra Rogato

Internal Supervisor: Maria I. Ferrante

Department of Integrative Marine Ecology

4. Copepods as model organisms to evaluate the toxicity of emerging contaminants: an ecotoxicogenomic approach

Director of Studies: Isabella Buttino

Internal Supervisor: Ylenia Carotenuto

Department of Integrative Marine Ecology

5. 'SFerOASys' Sponges as Fertilizing agents in Ocean Acidified Systems: Who's in the Loop?

Director of Studies: Laura Núñez Pons

Department of Integrative Marine Ecology

The closing date for applications is

July 15th 2019 - h. 12.00
